

30 August 2021

**The Honorable Joseph Biden
President
The White House Office of the President
1600 Pennsylvania Avenue NW
Washington DC 20500 USA**

Dear Mr. President,

We, the undersigned, are a group of organizations and individuals, advocates, scholars, faith leaders, practitioners and non-practitioners that share a common interest in the promotion of universal human rights.

We are writing to express concern about the case of Youth Pastor Yaroslav Mysyak who Ukrainian authorities have falsely held responsible for the death of his grandparents and uncle. The Transcarpathian Regional Court in August 1999 initially sentenced to Pastor Mysyak to death by shooting till the death sentence was overturned due to the nationwide moratorium on the death penalty. The Ukrainian authorities have kept him in prison these 23 years, with reports of torture being used by authorities to force a written admission of guilt. We ask that as you meet with President Volodymyr Zelensky on August 30th, you raise the case of Pastor Yaroslav Mysyak and appeal to the President to drop all charges against the pastor.

Human Rights organizations have raised concerns with the judicial process and failures to ensure Pastor Mysyak's right to a fair trial. Recent findings have produced clear evidence that the forensic report that was used to put Pastor Mysyak in jail was falsified. In addition, already in 1998 Amnesty International reported how there was reason to believe that Pastor Yaroslav Mysyak was framed for the murders. The investigation relied heavily on the forced admission of guilt and disregarded the lack of evidence to incriminate Mysyak. Amnesty International had received allegations of corruption among law enforcement officials in Uzhgorod, the home-city of Pastor Mysyak, including reports that some local police officers might have been

involved in the murders which were later attributed to Yaroslav Mysyak. The report also described how law enforcement officials in the city of Uzhgorod reportedly tortured Yaroslav Mysyak by electric shocks, after his arrest in May 1998. Mysyak's father who was able to secure a visit to see his son when authorities transferred him to a psychiatric hospital in the city of Lviv, was able to take photographs which showed the burn marks on Yaroslav Mysyak's hands where the electric shocks had been applied.¹

In the State Department's recent 2020 Human Rights Report on Ukraine, it documents severe police abuse of detainees in Ukraine with reports of law enforcement using torture and mistreatment to extract confessions. The recent example being given of two police officers from Uzhgorod, the city of Pastor Mysyak.²

We urge President Biden as he meets with President Zelensky to raise the case of Pastor Mysyak. As President Biden has expressed collaboration with Ukraine to fight corruption, the retrial and acquittal of Pastor Mysyak would be one clear step in addressing the widespread police corruption and arbitrary arrests of individuals in Ukraine.

Sincerely,
